

Dark Blue Bikinis, product description:

This summer, look cool on a hot day in a dark blue bikini. Flattering for many skin tones, this style looks particularly great on an hourglass body shape. Perfect for showing off a tan, dark blue also looks lovely on those with fairer skin. Dark blue provides a great alternative to conventional black and means you can still show your darker side. Be mysterious and flaunt your hourglass figure in a beautiful new bikini. Whether the look you are going for is Hollywood star or boho chic, a dark blue bikini teams up well with bold, bright accessories. Feathered jewellery is fun and casual, while neon colours keep the look modern.

Dark blue works as a neutral backdrop to a range of looks, so spend your summer experimenting with fresh new ideas! Accentuate your curves and show off your ultimate beach body in a glamorous dark blue bikini. The new range is perfect for hot summer nights when a darker shade brings out your inner sophistication. Dark blue adds a touch of class to your beach wardrobe, and can easily be dressed up or down with high heeled or flat sandals. Why not try metallic sandals for the evening or a natural leather shade in the day? The right sandals can transform a simple bikini from classic to stunning and the height of your heel will change your walk. Try wedges for a stable heel that still tones your figure. A higher heel lengthens the leg, perfect for showing off your body in a bikini.
